**GIVING
PERFORMANCE
TO LIFE**

ecogeneticsⁿ

Introduction

EcogeneticsN®'s mission is to maintain the constant quest to improve the quality of people's lives through nutraceuticals based on ancient wisdom but designed according to modern science.

We know that food ingredients affect transcription factors, protein expression and metabolite production. The regulation of genes impacts overall health, as each nutrient and the interaction of nutrients regulate metabolic processes in unique ways.

Nutrigenomics is the science that studies how nutrients interact with genes, i.e. how DNA and the genetic code affect your need for certain nutrients and how they help maintain your health balance.

**Our products are oriented
towards your genes.**

ecogeneticsⁿ

Mission

Our goal is always to improve the functioning of our bodies, increasing our performance and promoting or restoring health and well-being.

The production of EcogeneticsN®'s line of nutraceuticals and nutrigenomics obeys very demanding quality standards, because we believe that the excellence of products begins with the quality of the raw material, but also with the manufacturing process, which in addition to not containing any contaminants, must preserve all the nutrients of a pure and organic product.

Our philosophy is very simple:
We design nutrigenomic formulas, we always seek and choose the best raw materials, we manufacture with the most advanced quality and sell at the lowest possible price.

Regardless of your health needs and concerns, EcogeneticsN® supplements help you achieve your goals.

Brain & Motivation

5 HTP Plus
Melatonin
Nootropic
Tranquillity

5 HTP Plus

90

Everything your brain needs to be at its peak performance and mood. Ideal for emotional support and improving sleep quality.

- Promotes mental function
- Increases serotonin and dopamine levels in the brain
- Supports appetite regulation
- Helps depression

5-HTP Plus, provided by EcogeneticsN®, contains a synergistic combination of 5-HTP, vitamins, minerals and other nutrients designed to support mood and sense of well-being.

5-HTP is a natural derivative of the seeds of the Griffonia plant, which has the ability to cross the blood-brain barrier, without competition for absorption, and is significantly more effective than tryptophan in the synthesis of serotonin. This supplement also has Dopamine precursors and synergistic nutrients.

Does not contain any type of allergens.

Indications:

5-HTP Plus, can be a nutritional supplement for individuals who want to support mental function and increase serotonin levels in the brain.

Directions for Use/Care:

Adults should take 1 capsule a day or as prescribed. The recommended daily dose should not be exceeded. If you have any health problems, consult your doctor first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for under 18, pregnant or breastfeeding women unless prescribed/recommended by a doctor/pharmacist. Store in a cool, dry place. Keep out of the reach of children.

Melatonin

90

SUBLINGUAL

EcogeneticsN® melatonin is sublingual, meaning it enters the bloodstream directly through the sublingual veins, which means maximum absorption and effectiveness.

- Promotes a completely natural sleep
- Eliminates insomnia
- Improves sleep quality
- Detoxifies the cells
- Powerful Anti-aging

Melatonin is a natural hormonal nutrient that is synthesised from the amino acid tryptophan by the pineal gland at the back of the brain. In the body, Melatonin regulates sleep cycles, supports normal immune function and protects cells from the damage from free radical damage.

The difference to orally taken melatonin is that it is absorbed in the intestine, which can be more or less absorbed depending on the person, and ends in the liver, where much of the melatonin is destroyed.

Does not contain any type of allergens.

Indications:

Melatonin can be a nutritional supplement for individuals who wish to encourage pineal gland function and/or to regulate sleep cycles. In cases of travel it helps to recover from jet-lag extremely easily. It is also a powerful antioxidant. Note: Melatonin should always be taken sublingually to ensure its bioavailability.

Directions for Use/Care:

Adults should take 1 sublingual tablet a day or as prescribed. The recommended daily dose should not be exceeded. Melatonin should always be taken sublingually to ensure its bioavailability. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Store in a cool, dry place. Keep out of reach of children.

Nutritional Information per sublingual tablet:

Nootropic

60 60

Discover your mind's full potential with this supplement that combines 16 amazing nutrigenomics that will boost your brainpower.

- Improves memory
- Improves attention and concentration
- Improves mood
- Reduces mental fatigue
- Enhances cognitive abilities and creativity

The success of Nootropics is due to the fact that they act as an additive to neurochemical substances that are already present in the brain. These chemicals, including enzymes, hormones and neurotransmitters, contribute to improved cognitive functions.

However, in addition to improving cognitive functions, they also have the ability to increase the blood supply that is directed to the brain, and increase the overall growth of the cerebral nervous system.

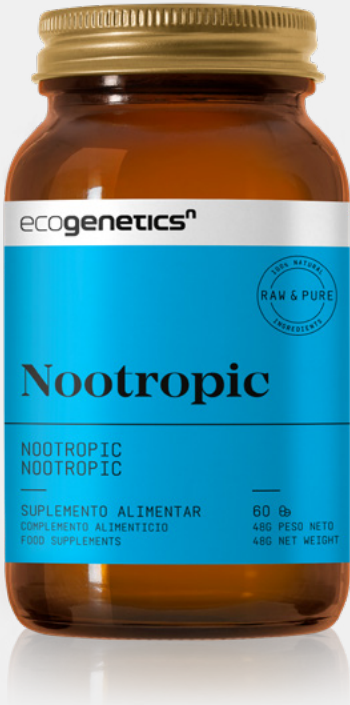

Nutrients such as Choline are essential for nourishing the brain and thus maintaining its abilities.
Contains soy derivatives.

Indications:

Nootropic can be a nutritional supplement for individuals who want support/help in: improving productivity, sleep quality, mood, body-mind coordination, neuro-plasticity, lexicality, and circulation to the brain, but also in preventing depression, giving more stability to emotions, protecting the brain, and regulating stress.

Directions for Use/Care:

Adults should take 2 capsules a day or as prescribed. The recommended daily dose should not be exceeded. If you have any health problems, consult your doctor first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Tranquility

60 

Powerful combination of 8 nutrigenomics proven effective for eliminating stress and anxiety, as well as toning the adrenal glands.

- Eliminates anxiety
- Reduces stress
- Combats excessive anger
- Tonifies the adrenal glands
- Helps digestive problems

Serious problems can arise when we are subjected to constant stress, such as toxic personal or work environments, professional challenges, etc.

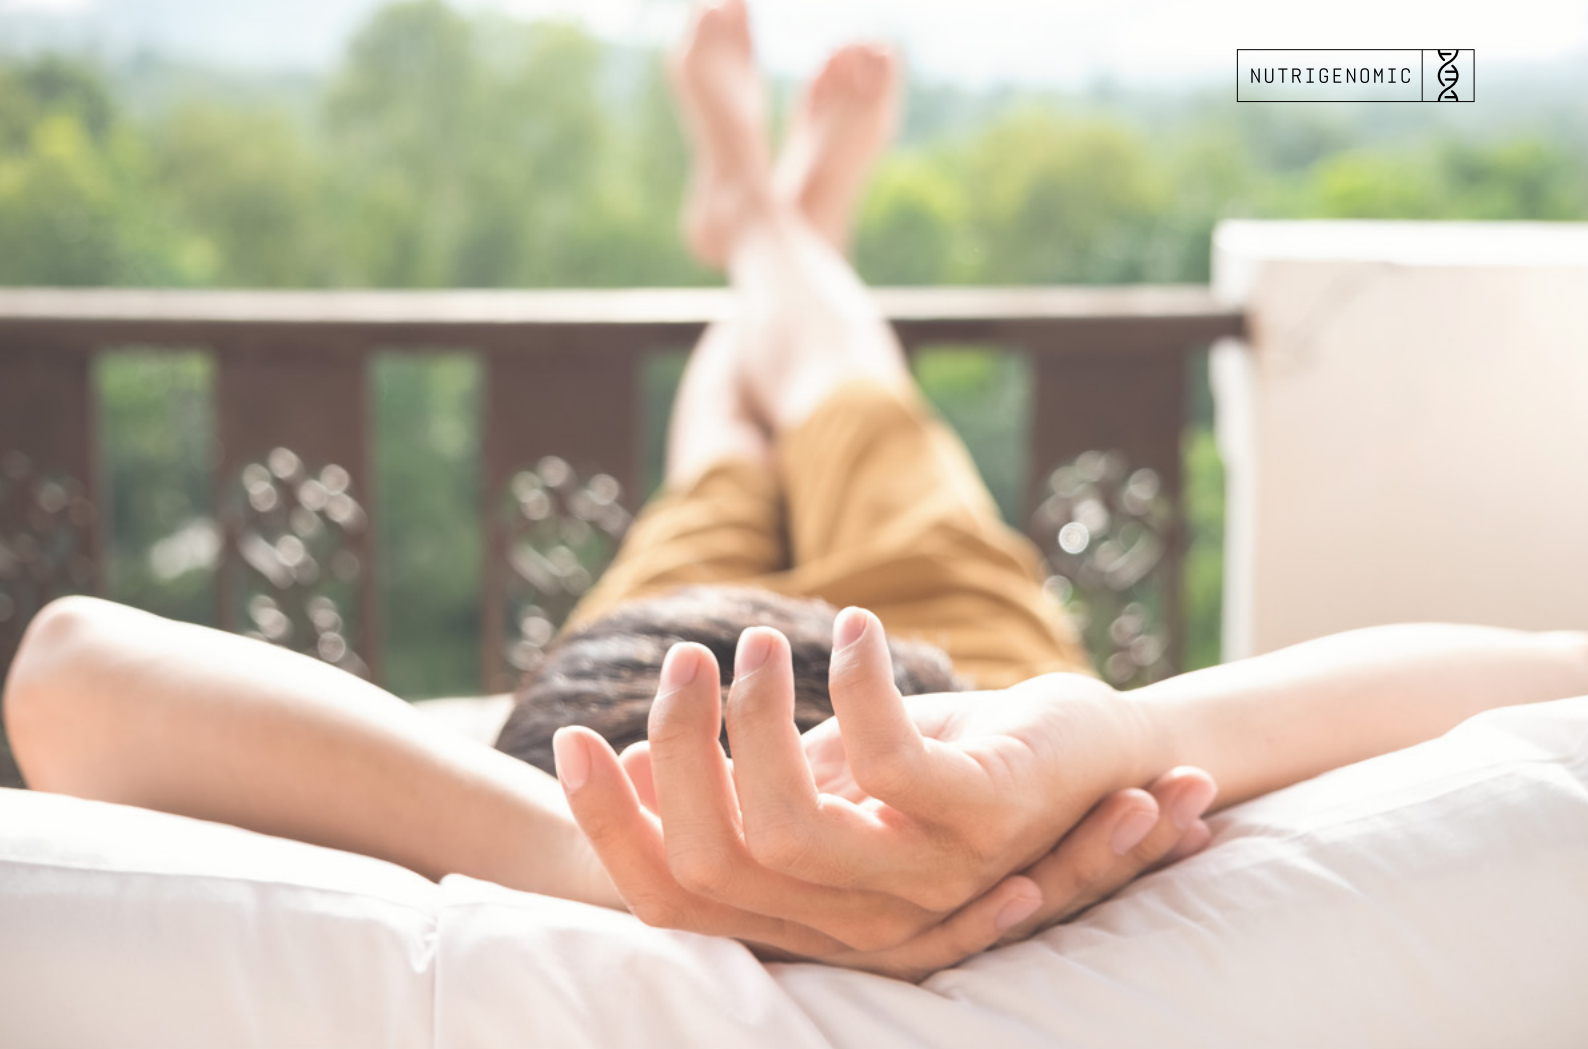

The long-term activation of the stress response system can lead to various health problems, affecting the cardiovascular, immune, neurological and metabolic system.

EcogeneticsN® tranquility, while regulating cortisol emission, effectively tones the adrenal glands, helping us to maintain helping us to constantly maintain a tranquil energy.

Does not contain any type of allergens.

Indications:

Tranquility can be a nutritional supplement for individuals who want support/help in improving sleep problems, decreasing anxiety, fighting depression, helping with digestive problems, preventing heart disease, preventing memory and concentration impairment, helping to fight obesity, preventing diabetes, decreasing excessive anger, and preventing and decreasing adrenal insufficiency.

Digestive Care

Digestion
Digestive Enzymes
Probiotics

Digestion

60 60

Digestion has a unique combination of probiotics, prebiotics, herbs and additional nutrients that helps support a healthy digestive system.

- Helps reduce symptoms of gas and bloating
- Helps prevent uncontrollable food cravings
- Promotes and regulates bowel function
- Blocks lectins (proteins present in some foods that interfere with digestion and general health)

When our digestive system feels challenged over time through an inadequate diet, oxidative stress from free radicals, mental and emotional stress from heavy metals and toxin overload, invaders and more, our overall vitality can be compromised.

A sluggish environment in our digestive tract can affect several areas of health. By supporting digestive function with selective nutraceuticals and research-based, we can also support immunity, vitality, cognitive health and much more.

Contains no allergens of any kind.

Indications:

Digestion, may be an ideal nutritional supplement for individuals who desire support in digestive function and regulation of bowel function.

Store in a cool, dry place. Keep out of the reach of children.

Digestive Enzymes

90 

Digestive Enzymes are the ideal nutritional supplement for those who wish to supplement their diets with digestive enzymes, of non-animal origin.

- Provides specific enzymes for fats, carbohydrates, proteins and also for lactose, with efficiency similar to digestive enzymes
- It also provides a powerful set of proteolytic enzymes that are essential for the proper functioning of the organism

In our body, digestive enzymes are produced mainly in the pancreas and small intestine, and will help in the breakdown of food into nutrients to be subsequently absorbed by the body.

You should take digestive enzyme supplements when you have the following symptoms:

- Gas and bloating after meals
- Feeling of food stuck in your stomach (like a "weight in your stomach")
- Feeling satisfied after eating a minimal amount of food
- Having undigested food in the stool
- Have permanently floating stools

Does not contain any type of allergens.

Indications:

Digestive Enzymes are the ideal nutritional complement for all those who wish to supplement their diets with digestive enzymes, of non-animal provenance, favouring the entire digestive process.

Probiotics

60

Probiotics by EcogeneticsN® is an essential supplement to regulate and promote the proper functioning of various systems in our body, especially the digestive system.

- Promotes the balance and effectiveness of the immune system
- Promotes optimal regulation of the metabolism
- Promotes biosis and gastrointestinal health
- Promotes the brain-intestine axis
- Promotes oral health

May contain traces of milk and soya.

Indications:

Probiotics can be a supplement for individuals who wish to maintain or promote proper functioning of the digestive system, immune system, gastrointestinal health, oral health, metabolic system, among others.

Directions for Use/Care:

Adults should take 1 capsule a day or according to professional prescription. Should not be exceeded the recommended daily dose. If you have any health problems, consult your doctor first. The supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children. After opening store in the refrigerator.

Vitamins & Minerals

Iron+
Magnesium Bisglycinate
Multinutrients
Potassium 1000+
Vitamin B Complex
Vitamin C Alkaline
Vitamin D3 4000
Mineral

Iron+

60

The Iron+ supplement has iron in a doubly chelated form and with several vitamins, such as Vitamin C, and other nutrients for greater bioavailability of of iron, thus achieving an absorption rate of this mineral superior to identical products that we can find in the natural supplements market.

- Iron booster for those suffering from problems related to low hemoglobin in the blood (Anemia)
- Favors the functioning of the immune system
- Regulates body temperature
- Helps the formation of hemoglobin and the transport of oxygen throughout the body
- Helps in cases of insomnia
- Promotes health and muscle performance
- Boosts brain function

Vitamin C aids in the absorption of iron and contributes, like all the other vitamins present in this formula, to the normal functioning of the nervous system and to fatigue. This mineral is also essential for athletes in high competition or with a very high physical demand, because in these cases the loss and demand of this mineral are much higher. Thus, in these cases, iron will act in the respiratory oxygen transport respiratory process to the tissues; be part of the enzymes that act in the process of cellular respiration; provide more energy for the whole body.

It is also essential for pregnant women, since it plays an important role in the formation of red blood cells, favors the formation and development of the nervous system as well as favoring the baby's energy metabolism. This formula has excellent bioavailability, is presented in capsule form, with a minimal metallic taste.
It does not contain any type of allergens.

Indications:
Iron+ is a food supplement designed to cover the daily nutritional needs of Iron, being complemented with various vitamins and other nutrients to facilitate its absorption and complement and strengthen its action. It seeks to compensate for low iron levels in cases of anemia, or heavy blood loss (heavy menstruation), pregnant women or athletes with great physical demand.

Directions for Use/Care:
Adults should take 2 capsules daily or as prescribed by a professional. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Magnesium Bisglycinate

120 

Magnesium participates in more than 300 chemical reactions in our body, but, despite exists in many foods, magnesium deficiency in the population today is widespread.

- Reduces tiredness and fatigue
- Promotes proper functioning of the nervous system
- Helps maintain blood pressure levels
- Promotes the proper functioning of the muscular system
- Contributes to the maintenance of bones and teeth
- Promotes immunity

This supplement is presented in the form of doubly chelated magnesium, being therefore the most bioavailable magnesium bisglycinate, i.e., it does not depend on the gastric juice for absorption, because it uses mechanisms similar to those used by amino acids, being more more easily absorbed and used by the body.

Because of its ability to support communication between the nervous system and other systems in the body, this supplement can also help improve mental functions.

It does not contain any allergens of any kind.

Indications:

Magnesium Bisglycinate can be an ideal nutritional supplement for individuals who want support/help to replenish the ideal values of this mineral in the body, favoring the reduction of tiredness and fatigue and helping in the normal functioning of the nervous system and muscles, normal protein synthesis, normal psychological function, maintenance of normal bones, normal energy-producing metabolism, balance of electrolytes, maintenance of normal teeth, the process of cell division, maintaining blood pressure levels, and boosting immunity.

Directions for Use/Care:

Adults should take 1 tablet daily or according to professional prescription. Should not be exceeded the recommended daily dose. If you have any health problems, consult your doctor first. The supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Potassium

1000+

120 100

POTASSIUM 100+ is an excellent supplement that will help to make up for the nutritional deficiency of potassium and thus regulate kidney, heart, muscle and skeletal function.

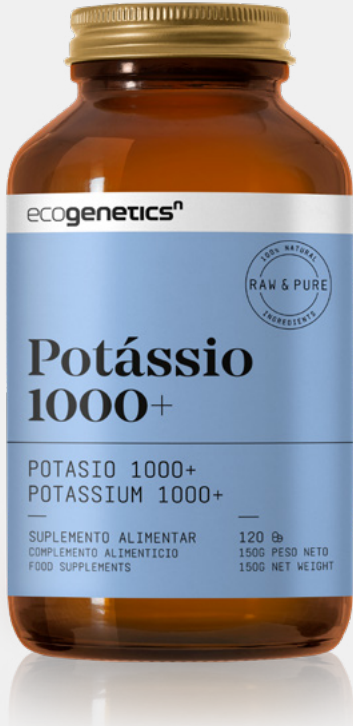

- Cardiovascular Diseases
- Optimal blood pressure
- Dialysis patients
- Use of corticosteroids in various diseases
- Use of diuretics
- Muscle cramps

Potassium is necessary for the normal functioning of cells, nerves, and muscles. It is the third most abundant mineral in the body, after calcium and phosphorus, plays an extremely important role, since it is an electrolyte and is essential for essential for the performance of numerous functions. It is also necessary for the proper nerve impulses and the contraction of all muscles in the human body, and also helps maintain a healthy and also helps maintain a regular and normal heart rhythm. Another essential essential function of potassium in the human body is to store carbohydrates, which are converted into energy.

It also provides phosphorus with a high level of bioavailability, which is essential in the formation of DNA and RNA, as well as ATP, and therefore essential for production of general body energy and muscle performance. Phosphorus is also in the absorption and use of calcium by the body.

Indications:
Potassium 1000+ can be a nutritional supplement to cover the daily nutritional potassium requirements, providing it in its most bioavailable form (dipotassium phosphate). It is a supplement with high bioavailability in phosphorus. Potassium deficiency can lead to hypertension problems. Dialysis patients are severely deficient in potassium. Potassium is the best regulator of body fluids and plays a decisive role in preventing fluid retention edema (feeling of tired legs and visibly swollen legs and hands). visibly swollen legs and hands. An early manifestation of potassium deficiency is cramps.

How to Use/Care:
Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Vitamin B Complex

60

High quality supplement with B-complex vitamins that will help maintain higher energy levels, preventing fatigue and helping both to control stress and support the entire nervous system.

B vitamins are important for blood cells, hormones, and nervous system function.

As water-soluble substances, the B vitamins are not usually stored in the body in appreciable quantities (with the exception of vitamin B-12). Therefore, the body needs an adequate supply of B vitamins on a daily basis.

Does not contain any kind of allergens.

Indications:

B-complex vitamins can be used in the treatment of deficiencies of this vitamin and its manifestations, in several areas such as dermatology, pediatrics, among others. This supplement helps in cases of celiac disease and cradle cap, malnutrition, reestablishment of the intestinal flora, in diabetic and ulcer diets, in cases of stomatitis stomatitis, chronic alcoholism, anorexia and asthenia, etc. It has an important action to maintain the energy levels of the body higher and necessary for the control the day to day stress.

Vitamin C Alkaline

60

This supplement contains a non-acidic form of vitamin C, based on calcium ascorbate, combined with powerful antioxidants to support healthy functioning of the entire body.

- Has an alkaline pH
- Supports the immune system
- Supports the circulatory system
- Detoxifies cells and protects them from free radicals

The antioxidant functions of vitamin C appear to have clinical significance in providing protection against free radical damage in the eyes, lungs, blood and immune system.

It is essential for the synthesis of collagen and glycosaminoglycans, which are the building materials of all connective tissues such as blood vessels, tendons, joint cartilage, and bones.

Vitamin C is also essential for normal healing and hair health.

In addition to vitamin C it has a complex of bioflavonoids, powerful phytochemicals which, in addition to other specificities, help to enhance the benefits of this vitamin. **It does not contain any type of allergens.**

Indications:

Alkaline Vitamin C can be a useful dietary supplement for those who wish to supplement their diet with this unique blend, of non-acidic vitamin C, citrus bioflavonoids, hesperidin and naringin. Its main benefits are to help fight free radicals, aid in the prevention of cardiovascular disease, promote eye health, reduce flu symptoms, improve the quality and appearance of skin, hair and nails, and promote the reduction of bad cholesterol (LDL) levels.

Directions for Use/Care:

Adults should take 2 capsules daily or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your doctor first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Vitamin D3 4000

60

Vitamin D3 supplement, the vitamin of the sun, which is responsible in our organism for for the maintenance of more than 200 genes, and is decisive for the perfect organic functioning of cells, tissues and organs.

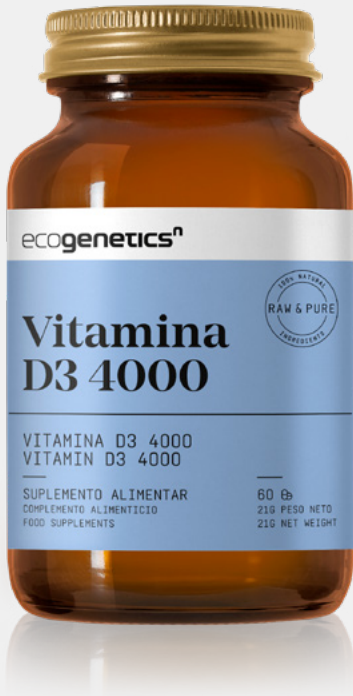

- Regulates more than 2000 genes in our body
- Slows aging
- Promotes reproductive health
- Strengthens and regulates the immune system
- Promotes good mood and sense of well-being

In addition to its traditional involvement in calcium and phosphorus metabolism, there is now a growing body of evidence that indicates it is indispensable in the prevention a number of cancers (colon, breast, lung, pancreas, ovarian, prostate), as well as in the formation of serotonin and its antidepressant effect.

Of the two types of Vitamin D, D2 (Ergocalciferol) and D3 (cholecalciferol), only the latter fulfills the above-mentioned organic functions.
It does not contain any type of allergenic.

Indications:

Vitamin D3 4000 is a nutritional supplement for individuals who wish to supplement Vitamin D levels in the body. Its main benefits are to promote: cardiovascular health, athletic performance, muscle development, cell formation and longevity, aging retardation process, pancreatic health, reproductive health, skin health, hair, bones, eyes, respiratory health, sleep patterns, hearing, immune system, weight control, digestion and absorption of food, good mood and sense of well-being.

Directions for Use/Care:

Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. The supplements should not replace a varied and balanced diet and a healthy lifestyle. Store in a cool and dry place. Keep out of reach of children.

Zinc

120 

Zinc in oral spray is the ideal way to increase the intake of this mineral, quickly, practically and very efficiently, as it has an absorption rate equivalent to an injectable.

- Recovery of the sense of smell and taste
 - Prevents prostate hypertrophy
 - It is essential for cell division and protein synthesis
 - It is essential to activate the immune system and the production of antibodies
- Zinc contributes to normal acid-base metabolism, normal carbohydrate metabolism, promotes vitamin A and fatty acid absorption, and normal protein and DNA synthesis. Furthermore, zinc plays a role in the cell division process and contributes to the protection of cells against oxidative stress. Zinc also supports the maintenance of strong bones, hair and nails, as well as healthy skin. It favors the proper functioning of the immune system as it allows rapid cell division. It helps maintain cognitive functions such as concentration, learning, memory and reasoning, as well as resistance to stress. Absorption of toxic heavy metals, especially cadmium and lead, is lower in individuals with higher zinc values compared to those with lower zinc values. In addition, zinc contributes to fertility, reproduction and the maintenance of normal levels of testosterone in the blood.

Zinc Spray by Ecogenetics is a technological innovation in the form of nutrient availability. In fact, each dosage of microemulsion instantly penetrates into the bloodstream, providing an immediate and lasting effect on its use by the body.Zinc Spray by Ecogenetics is the only spray with zinc and vitamin B5 in microemulsion scientifically proven. The main benefit of this spray is to ensure greater bioavailability of zinc than other forms of presentation such as tablets, capsules, drops and other sprays. This zinc presentation guarantees maximum absorption efficiency in the body, up to 95% more compared to zinc in capsules or drops. **Does not contain any type of allergens.**

Indications:

Zinc can be a nutritional supplement for individuals who want to increase the amount of this mineral in the body.

Directions for Use/Care:

For the first use, press the spray, pressing it 3-4 times. Do not shake the package before using it. Spray 3 times in the mouth, twice a day, or according to professional prescription. Replace the cap after use and keep the package in an upright position. The recommended daily dose should not be exceeded. If you have any health problems, see your doctor first. Supplements should not replace a varied diet and a healthy lifestyle. Not recommended for children under 18, unless prescribed/recommended by a physician/pharmacist. If the product has not been used for a long period, the spray may become congested. If so, rinse with warm water. Store in a cool, dry place. Keep out of the reach of children.

Nutritional Information for every 6 sprays:		*%NRV
Zinc (acetate)	15MG	150%
Vitamin B5 (calcium pantothenate)	6MG	100%

*%NRV: Nutrient Reference Value

Mineral

237ML

Mineral contains the 72 minerals that the body needs daily, and without them, vitamins are not absorbed. It is the most powerful and naturally occurring PH regulator in Great Salk Lake, Utah - USA.

- Sea water solution with 6 times higher mineral concentration and a balanced sodium concentration
- Strengthens bones, joints and teeth
- Nourishes and tones the skin, hair and nails
- Provides essential microminerals for proper functioning of the body
- Promotes calcium assimilation
- Helps the pH balance

Uses and Applications:

- Performance enhancement in athletes, among others
- Hair and skin
- Intestine
- Circulatory health
- pH balance
- Calcium assimilation
- Electrolyte replacement
- Water remineralization
- Bones and joints

It does not contain any type of allergens.

Indications:

Mineral can be a useful dietary supplement for those who wish to supplement their diet with over 72 ionic minerals. Besides providing our body with all the minerals it needs, it regulates the natural pH. The use of this supplement can bring benefits at the level of bones and joints, hair and skin, intestine, calcium assimilation circulatory health and in the activation and potentiation of vitamins. It can also be used to remineralize tap water, increase sports performance, and replenish minerals, both minerals, both for our pets and for our plants.

Directions for Use/Care:

Adults should take 10 drops in a glass of water, tea or juice for the first 3 days and then go increasing the dose at the rate of 10 drops per day until reaching 40 drops per day divided into two doses of 20 drops each, or as prescribed by your health care provider. Children between 2-3 years of age should take one drop per 2.5 kg of body weight. Remineralize your drinking water by adding 20-40 drops per 5 liters, or 2-4 drops per glass of water. You should not exceed the recommended daily dose.

Nutritional Information per 40 drops:		*%NRV
Magnesium (Chloride of)	250MG	66,67%

Co-Enzyme Q10 120 tb

SUBLINGUAL

Supplement that provides naturally fermented Co-Enzyme Q10 for sublingual absorption fermented, with no sugar, artificial colors or flavorings, providing faster and greater absorption. It is intended to help supplement requirements for Co-Enzyme Q10 that are not met by diet, through biosynthesis of the molecule.

- Indispensable for oxygen to be carried to all cells
- Increases energy and sense of vitality
- Promotes the function of the heart muscle
- With N-Acetyl-L-Carnitine
- Sublingual for greater absorption

Since almost all cellular activities are energy-dependent, Co-Enzyme Q10 is essential for the health of all human tissues and organs, and is a naturally occurring antioxidant nutrient that slows down the free radical formation in biological systems.

Co-Enzyme Q10 is also important for the maintenance of blood vessel and the function of the heart muscle. In addition, people who take statins may develop deficiencies in Co-Enzyme Q10 and may require supplementation.

L-Carnitine acts in the metabolism of fats and carbohydrates. It carries fatty acids to the mitochondria for production of Adenosine Triphosphate (ATP). L-Carnitine is in charge of carrying oxygen and fatty acids into the cells. There, Co-Enzyme Q10 will help convert them into energy.

Does not contain any allergens.

Indications:

Sublingual Co-Enzyme Q10 may be a useful supplement for individuals whose dietary requirements for coenzyme Q10 are not met through biosynthesis of the molecule.

How to Use/Care:

Adults should take 1 sublingual tablet a day or as prescribed. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Store in a cool, dry place. Not recommended for children under 18, pregnant or lactating women, unless prescribed/recommended by a physician/ pharmacist. Keep out of reach of children.

Nutritional information per sublingual tablet:

Coenzyme Q10 (Ubiquinone)	10MG
N-Acetil-L-Carnitina HCl	100MG

Krill+DHA Plus

60

Krill+DHA Plus is a formula for those who wish to supplement their diet with the most bioavailable source of Omega 3, Krill Oil. It is a supplement for those who wish to improve cardiovascular and cerebral functioning.

- Highly bioavailable source (phospholipids) of Omega 3 with almost 500mg of EPA/ DHA per capsule
- Great brain and cell food

Krill Oil from Antarctica is made from krill with a high percentage of DHA and choline, which are essential for adults, but also for the normal development of the fetal and infant brain. It contains omega-3 fats, eicosapentanoic acid (EPA) and docosahexanoic acid (DHA).

Most fish oils are in a triglyceride form, but Krill oil is in the phospholipid form, which is more stable and has the addition of astaxanthin, which helps the further stabilization process, with all the other recognized benefits of this substance.

This formula, enriched with EPA-DHA from cold processed fish oil free of heavy metals and contaminants, thus providing your body with the to make the most of these two exceptional sources of omega-3.

It is not suitable for people with fish or shellfish allergies.

Indications:

Krill+DHA Plus can be a nutritional supplement for individuals who want support/help to cover the daily nutritional needs of omega 3. Krill oil is the richest and most bioavailable source of omega 3, in the form of phospholipids that feed the your brain, and protect your cells and your heart, also has an anti-inflammatory action as it is a precursor of anti-inflammatory prostaglandins.

Directions for Use/Care:

Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Nutritional information per capsule:

Eicosapentaenoic Acid(EPA)	125MG
Docosahexaenoic Acid(DHA)	290MG
Astaxanthin	0,10MG
100 grams of product contains approximately 732 kcal	

Liponutrients

90 

Formula that features selective kinase response modulators (SKRMs) that improve insulin tolerance and lipid parameters. SKRMs derived from plant-based compounds, have the ability to modulate specific cellular signaling pathways specific cellular signaling pathways, which may play a role in chronic disease.

- Promotes the regulation and balance of cholesterol values
- Prevents lipid and cholesterol oxidation

Although cholesterol serves an important function, too much cholesterol in the blood can increase the risk of heart attack or stroke.

It provides 90 mg of plant sterols per serving, in accordance with international recommendations and high-quality nutrition for patients with hypercholesterolemia.

Unused cholesterol can accumulate in the arteries causing them to harden or narrow, diminishing their ability to perform their function properly.

This condition, known as atherosclerosis, can lead to angina (chest pain), heart failure (the heart can't pump blood properly) or arrhythmia (irregular heartbeat or rhythm).

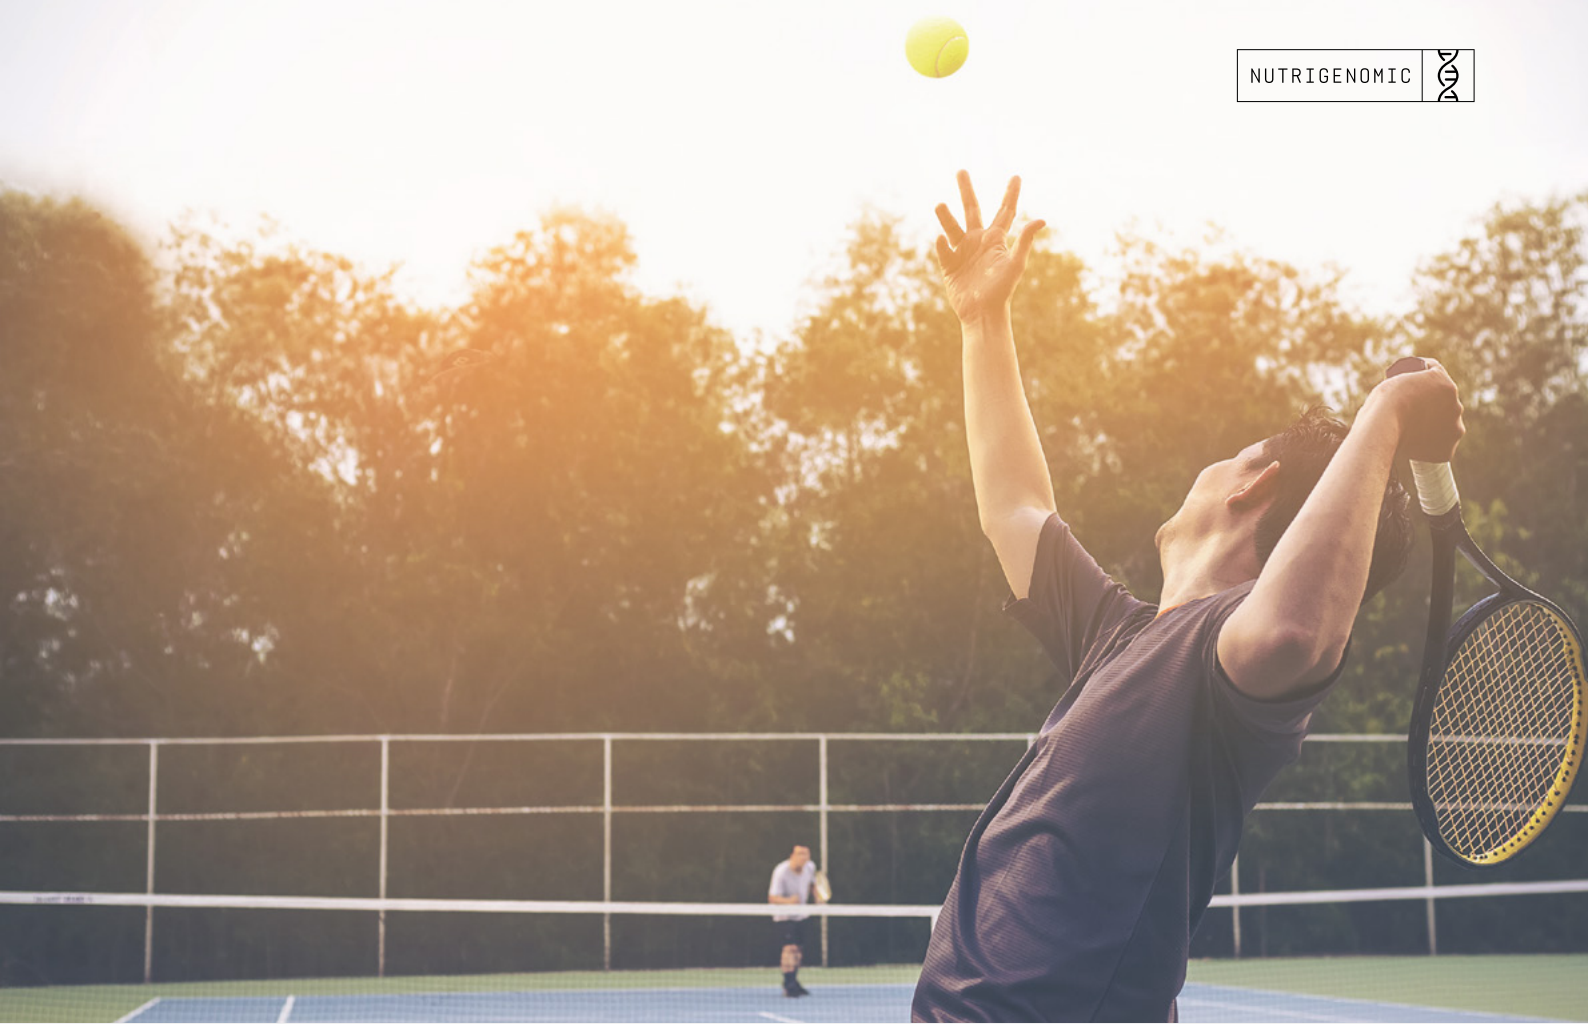

It does not contain any allergens.

Indications:

Liponutrients can be a nutritional supplement for individuals who want to achieve healthy cholesterol levels. Food supplements should not replace a balanced diet.

Directions for Use/Care:

Adults should take 3 capsules a day or as per professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Cells Plus

120 

One of the most effective nutrigenomic supplements to protect your cells and your health. This formula is extraordinarily rich in polyphenols that help the body maintain higher energy levels, protect the cardiovascular system, promote better digestion and healthier skin.

- Strengthens the immune system
- Modulates hormonal, anti-inflammatory and anti-tumor function
- Helps detoxify the liver and promotes liver function
- Helps inhibit metastization

This unique formula is designed to:

- Activate the Nrf2 genetic pathway that regulates the production of important antioxidants, such as glutathione and superoxide dismutase (SOD), as well as detoxification enzymes including glutathione transferase, while down-regulating inflammatory factors inflammatory factors such as NF-kB;
- Inhibit angiogenesis and thus metastasization;
- Model hormonal, anti-inflammatory and anti-tumor function;
- Strengthen the immune system and detoxify the liver.

Our cells are increasingly subjected to enormous pressures due to environmental factors, in which diet and environmental factors in which diet and lifestyle play a decisive role, loading our organism with a high number of free radicals and inflammatory factors. **It does not contain any type of allergens.**

Indications:

Cells Plus is nutritional supplement, extremely rich in polyphenols, for individuals who wish to increase energy and vitality levels, protect the cardiovascular system cardiovascular system, promote better digestion and healthier skin. It is also ideal to accompany oncological treatments, due to its angiogenesis and thus metastasization, and for those who wish to strengthen the immune system and detoxify the liver.

Directions for Use/Care:

Adults should take 2 to 4 capsules daily or as prescribed by a professional. The recommended daily dose should not be exceeded. If you have any health problems, consult your doctor first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Nutritional Information per 4 capsules:

Quercitin (Sophora Japonica flowers) (95% biofalconoids-HPLC)	300MG
Scutellaria Baicalensis root extract 5:1	200MG
Curcuma longa rhizome (standardized to 95% curcumin)	200MG
Astragalus membranaceus root (standardized 16% polysaccharides 5:1)	200MG
Green Tea extract (leaf) (standardized to 98% polyphenols and 50%EGCG)	200MG
Broccoli extract (provides Indol-3-Carbinol)	200MG
Phytosterol Complex	150MG
Reishi (Ganoderma Lucidum) powder	125MG
Cordyceps Sinensis extract 7% mannitol	60MG
Saw Pamletto - Palma Enana extract (berry) (standardized to 45% lipid concentration)	60MG

Immune

60 

Immune is a powerful nutrigenomic designed from the scientific point of view to to promote proper functioning of the Immune System. This unique combination of plant components and selected nutrients, influences signaling kinases (Selective Kinase Response Modulators (SKRM)) that "talk" to genes that modulate the immune system's optimization pathways.

- Modulates and optimizes the functioning of the immune system
- Promotes recovery from colds and flu
- Helps with autoimmune problems
- Delays premature aging of the cells
- Increases energy and stamina
- Helps the body fight free radicals that damage cells
- Reduces allergy symptoms

Immune system provides a high degree of balance in immune function and certain fundamental determinants linked to immunity - such as the activity of eicosanoids eicosanoids, cytokines, white blood cells, phagocytes, mast cells, eosinophils, basophils lymphocytes (B cells and T cells) - that are associated with priority responses of the immune system responses.

The healthy function of the immune system is paramount for the protection and response of our body to possible attacks by viruses, bacteria, germs, parasites, and fungi. Developed through processes that combine the latest advances in nutrigenomics and cellular proteomics, IMUNE guarantees maximum safety and effectiveness.

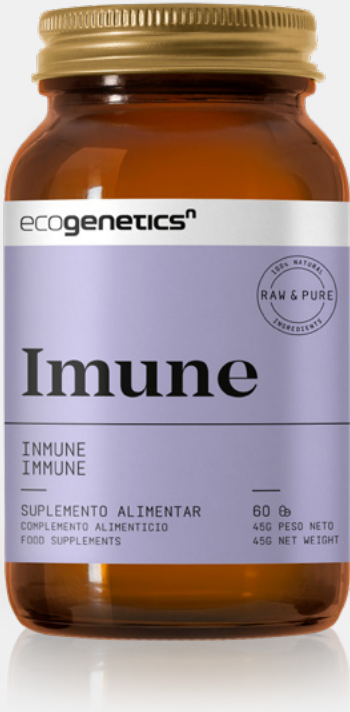

It does not contain any type of allergens.

Indications:

Immune is a supplement designed to promote optimal functioning of the immune system, providing protection and facilitating our body's response to possible attacks of viruses, bacteria, germs, parasites and fungi.

Directions for Use/Care:

Adults should take 2 capsules daily or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Metabolism

120

Nutrigenomics Metabolism is scientifically designed to support a healthy metabolism, maintain balanced blood sugar levels, as well as decrease the appetite for sweets and the absorption of fats.

- Promotes the achievement of optimal weight
- Helps balance healthy blood sugar levels
- Promotes normal secretion and sensitivity to insulin and leptin (appetite suppressant hormone)
- Promotes healthy regulation of ghrelin (hormone responsible for the feeling of hunger)
- Promotes healthy carbohydrate, fat and protein

This formula combines 14 nutrigenomics deeply studied by science and highly effective to give health professionals a valuable tool to in conjunction with a genetically appropriate diet and regular exercise to achieve the best possible results.

Leptin and ghrelin are two hormones with recognized influence on the body's energy balance. Leptin, as a long-term mediator of this energy balance and suppressor of food intake, plays an important role in weight reduction. Ghrelin is a hormone responsible for generating the sensation of hunger, which warns us of the need to ingest nutrients. **It does not contain any type of allergens.**

Indications:

Metabolism is a nutritional supplement for individuals who wish to support a healthy metabolism, maintain balanced blood sugar levels, as well as decrease the appetite for sweets and the absorption of fats.

How to Use/Care:

Adults should take 4 capsules a day or according to professional prescription. The recommended daily the recommended daily dose. If you have any health problems, consult your doctor first. The supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Healthy Eyes

60

Healthy Eyes is a food supplement that features a combination of astaxanthin, lutein, zeaxanthin and bilberry, thus bringing together what, nutrigenomically are considered to be the best and most important nutrients known for eye health.

- Protects the skin and eyes from the harmful effects of solar radiation
- Protects the entire eye area from the effects of free radicals
- Prevents aging of eye tissues
- Prevents vision loss

This supplement contains an optimal dose of natural astaxanthin which is claimed to be one of the most powerful antioxidants, and in addition to many other benefits, protects the eye from the damaging effects of free radicals, improves and protects the skin both in its texture, eliminating wrinkles and unwanted marks and can even cure certain skin problems, substantially reducing the risk of skin cancer. It also promotes a generally younger appearance. It also reduces the damaging effects of UVs on DNA and works as a powerful natural anti-inflammatory and cardiovascular system protector of extraordinary interest to athletes.
Contains no allergens of any kind.

Indications:

Healthy Eyes is a nutritional supplement for individuals who want support to cover nutritional needs, featuring a combination of astaxanthin, lutein, zeaxanthin and blueberry, which nutrigenomically are considered to be the best and most important nutrients known for eye health, providing a great aid in combating the aging of eye tissues and the development and proliferation of proliferation of some eye pathologies such as glaucoma, presbyopia, macular degeneration, and cataracts.

Healthy Bones

120 

Healthy Bones is a supplement with 15 nutrigenomics proven effective for maintain or promote bone and joint health.

- Allows the replacement of minerals (macro-minerals) and other nutrients for the maintenance and renewal of bones and joints
- It makes available the macrominerals, in their most bioavailable form, indispensable for the the body's proper functioning

Bone maintenance (known as "remodeling") and density are largely dependent on essential nutrients-such as calcium, vitamins D and K, boron, magnesium, and manganese-that may be lacking in many modern diets.Healthy Bones promotes musculoskeletal health, including support for healthy bone mineralization and remodeling, as well as support for connective tissue health and to address problems such as inflammation and pain, without any side effects.

Joint health can benefit from the contribution of glucosamine and chondroitin and other nutrients that support cartilage integrity.
Contains fish derivatives.

Indications:
Healthy Bones is a nutritional supplement that features a combination of 15 nutrigenomics proven effective for maintaining or promoting bone and joint health. bones and joints. Thus this formula can favor pathologies of the osteoarticular area.

How to Use/Care:
Adults should take 4 capsules a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your doctor first. The supplements should not replace a varied and balanced diet and a healthy lifestyle.Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. No Inflammation

120 

Inflammation Free is a 100% natural anti-inflammatory that combines 14 nutrigenomics proven to modulate inflammation and pain, providing effective pain relief with no side effects.

- Deactivates the factor (NF-Kβ) responsible for chronic inflammation
- Eliminates inflammation, pain and cellular oxidation

Selective response kinase modulators, or SKRMs, are nutritional substances that can bring signaling kinases back into balance, helping to restore healthy signaling to genes, favorably influencing gene expression and reversing the effects of chronic pathologies.

With 14 nutrigenomics proven effective to modulate inflammation and pain:

- Provides effective pain relief without side effects.
- Modulates the production of prostaglandins E2 (PGE2) in specific target cells.
- Targets selective kinase response modulators (SKRMs) to modulate the activity of kinases for good health.
- The synergy of oleanolic acid and Rosmarinus Officinalis provides high efficacy even by a small dose, presenting an cost-effective.

May contain traces of soy or soy derivatives.

Indications:

No Inflammation is a nutrigenomics supplement designed for natural pain and inflammation relief, due to its powerful combination of therapeutic plants. It is the perfect substitute for synthetic anti-inflammatory drugs, removing all the adverse side effects that can result from taking them.

How to Use/Care:

Adults should take 4 capsules a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Magnesium Sport

Macrominerals Sport

30

All the macrominerals that are indispensable for the maintenance and protection of healthy bones and healthy joints, which favor your strength and flexibility.

- Provides essential macro-minerals for the body to function properly
- Allows the replacement of macrominerals and other nutrients for the maintenance and renewal of muscles, bones, and joints

It favors the increase of mobility, balance, and functionality of your bones muscles and joints, also helping in post-workout recovery.

With Manganese, Glucosamine, Chondroitin, Hyaluronic Acid, among others.

The protection that athletes need to maintain the musculoskeletal health of their increased mobility, balance, and functionality.
Contains soy and may contain fish derivatives.

Indications:
SPORT Macronutrients is a food supplement designed to cover nutritional needs, featuring a combination of glucosamine, chondroitin, hyaluronic acid and other minerals. Thus, this formula includes what, nutrigenomically, are considered to be the best and most important macrominerals for the musculoskeletal health of the organism.

How to Use/Care:
Adults should take 1 sachet a day. For athletes it is indicated to take 2 sachets a day, or as prescribed by your health care professional. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry cool and dry place. Keep out of reach of children.

Magnesium Sport

120

Magnesium Sport comes in the form of Magnesium Malate, Magnesium with Malic Acid.

- To promote muscle metabolism and immune system
- Help in chronic pathologies such as Fibromyalgia
- Help in the recovery of muscular pains and chronic muscular fatigue
- Eliminate harmful metals from the organism
- Stimulate cellular energy and improve digestion.

In the neuromuscular system, magnesium participates in neurochemical transmission and excitability, controlling cardiac electrical activity, muscle contractility, nerve cell contractility, and nerve cell function. In bone metabolism, it is necessary for the maintenance of bone integrity, since it is metabolically related to calcium. It is a constituent of the mineral bone structure together with calcium and phosphate, and participates in the processes of mineral exchange between bone and tissue. In addition, it acts in the regulation of ossification and in the proper fixation of calcium, preventing its deposition in the form of calculi.

Magnesium Malate has in its formula molecules of malic acid that bind to one magnesium molecule to constitute a necessary source of magnesium, and also of malic acid, having a malic acid, having a higher bioavailability. In addition, it has a prolonged absorption besides not reacting with gastric acid because it is in the malate form, avoiding gastric discomfort, which does not occur with other forms of magnesium. In studies performed, it was observed that Magnesium Malate had the ability to reduce muscle pain, such as fibromyalgia. Malic acid is a compound that acts in the Krebs cycle, playing an important role in important role in the production of energy in the body. **Contains no allergens of any kind.**

Indications:

Magnesium SPORT is a supplement designed to help reduce pain, functional disability, behavioral and cognitive changes, and is essential in conditions such as chronic fatigue syndrome and fibromyalgia. Studies have shown that it may have benefits as an adjunct in the prevention of osteoporosis and in maintaining heart health. It is relevant in top athletes, to aid in rapid recovery and aid in rapid recovery and post-workout pain relief.

How to Use/Care:

Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Detox

Toxins

Toxins

60 

Powerful nutrigenomic formula, of synergistic combination of fiber and nutrients, that contains a high quantity of detoxifying plants, favoring a detoxification hepatic and intestinal detoxification, draining the toxins present in the body.

- Promotes a general detoxification of the body
- Eliminates heavy metals and toxic substances
- Drains the liver and helps maintain a healthy digestive system

With today's diet, it is common to retain undigested food in the colon, which together with other waste products, microorganisms and toxins, ferment in the body and circulate through the bloodstream to the entire body.

Keeping the colon clean with regular detoxification helps prevent problems such as such as fatigue, allergies, constipation, poor appetite, excess weight, bad breath, and even more serious diseases.

This formula is perfect to assist in the initial phase of a diet, as it helps with weight loss and relieves weight loss and relief of fluid retention.

Does not contain any type of allergens.
